VISION

MAXIMUS VISION COMPANY

VISION TOWARDS THE SUMMIT

◆ A word from CEO

In the Maximus vision, we aim to become the optimal strategic partner in various business sectors, by attracting cadres , over **forty years of experience** in several fields, we are currently managing and establishing strategic projects in the business sector and the operational business sector in international airports, competing with the largest companies in this field, and in The field of major construction projects, infrastructure, and sustainable maintenance work in all business sectors, and we manage operational programs in the fields of private aviation, travel and tourism, management and organization of exhibitions and international conferences, **we have achieved tangible and impressive results** in the referred With the construction of many sensitive and sensitive entities in the state, we gained confidence in being the preferred choice of ministries and security agencies, with God's help we have accomplished 58 special international trips to transport passengers with security standards of a special nature for more than twelve thousand passengers, in addition to 32 trips cargo equipment and security vehicles, Locally and internationally, in addition to completing the establishment of a number of construction and architectural projects for these entities, which we consider to be among the strongest accomplishments in which we have achieved all security requirements in accordance with strict standards, which have received **great approval** from the relevant authorities.

In the Maximus vision... we are committed to achieving the goals and have completed the projects

Our ambition embraces the sky

◆ A word from the general manager

The Maximus Vision company was founded on a modern and advanced management thought, focusing on customer service in a manner that guarantees outstanding performance and professional and professional cadres at the highest level and a professional administrative structure of departments, operational departments, and consultants in many fields that put at the forefront of their goals building solid business relationships based on sustainable partnerships with our partners In the various business sectors and the structural, architectural and operational sectors that take into account strategic interests and aspirations in the development sector, and to work to secure solutions that exceed the expectations of all our customers locally and internationally in the speedy completion of projects and complementary services for the under construction In extreme visibility, we deal with strong partners with strict quality standards

Enhance added value

It stems from our complete satisfaction in providing us with added values day in and day out for our business partners and for the elite who love excellence and creativity in all parts of the world, so that we can fly over them important clouds overcoming all challenges and difficulties, because we work in a different professional manner in the field of construction, strategic projects, operation and support services at airports International and Private Aviation, where our expertise varies between technical services and professionally managed operations to achieve our two elements of success

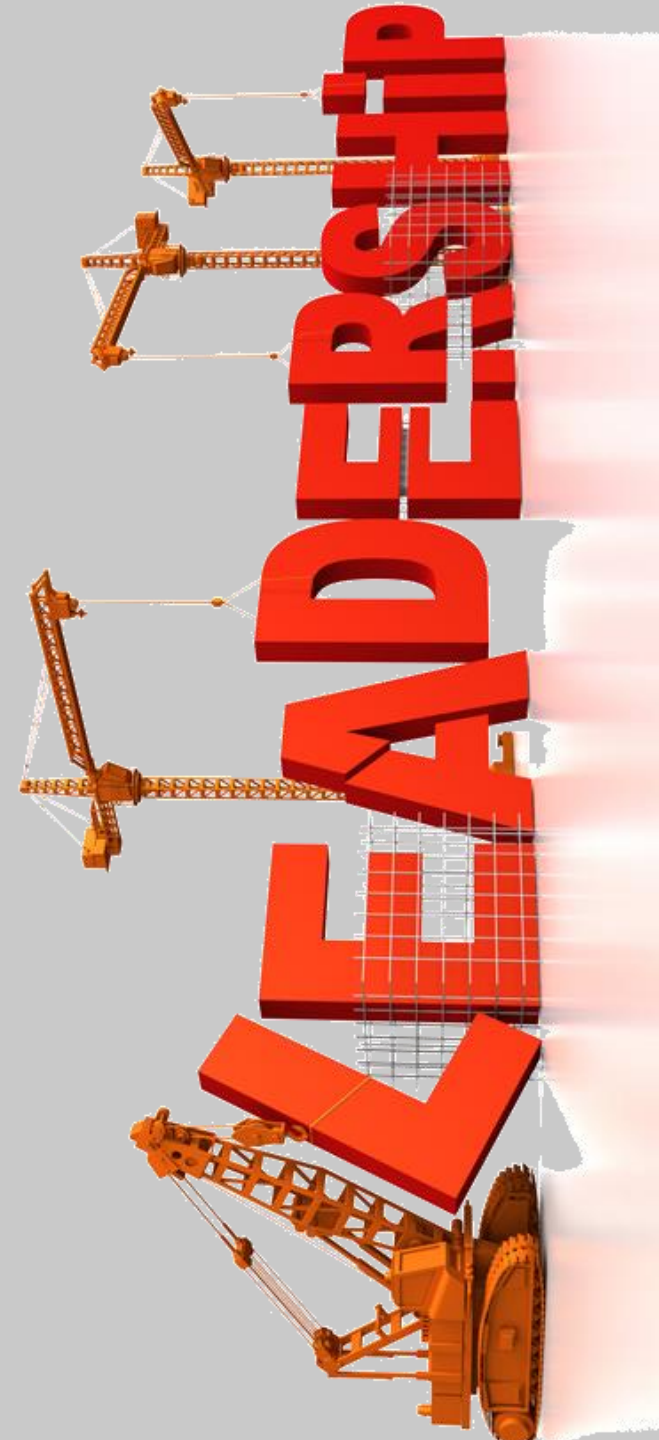

Technical roles

Technical roles such as careful project planning, strict application of quality, safety and security standards, which gave us a great opportunity to work directly with many of our partners in the field of development, planning, and construction, global standard quality research teams, and numerous international agencies to meet the needs of the elite of our valued customers beyond their expectations. To make their partnership with us an added value for a series of successive successes, and gain the trust of many stakeholders in the country.

◇ Our leadership ability

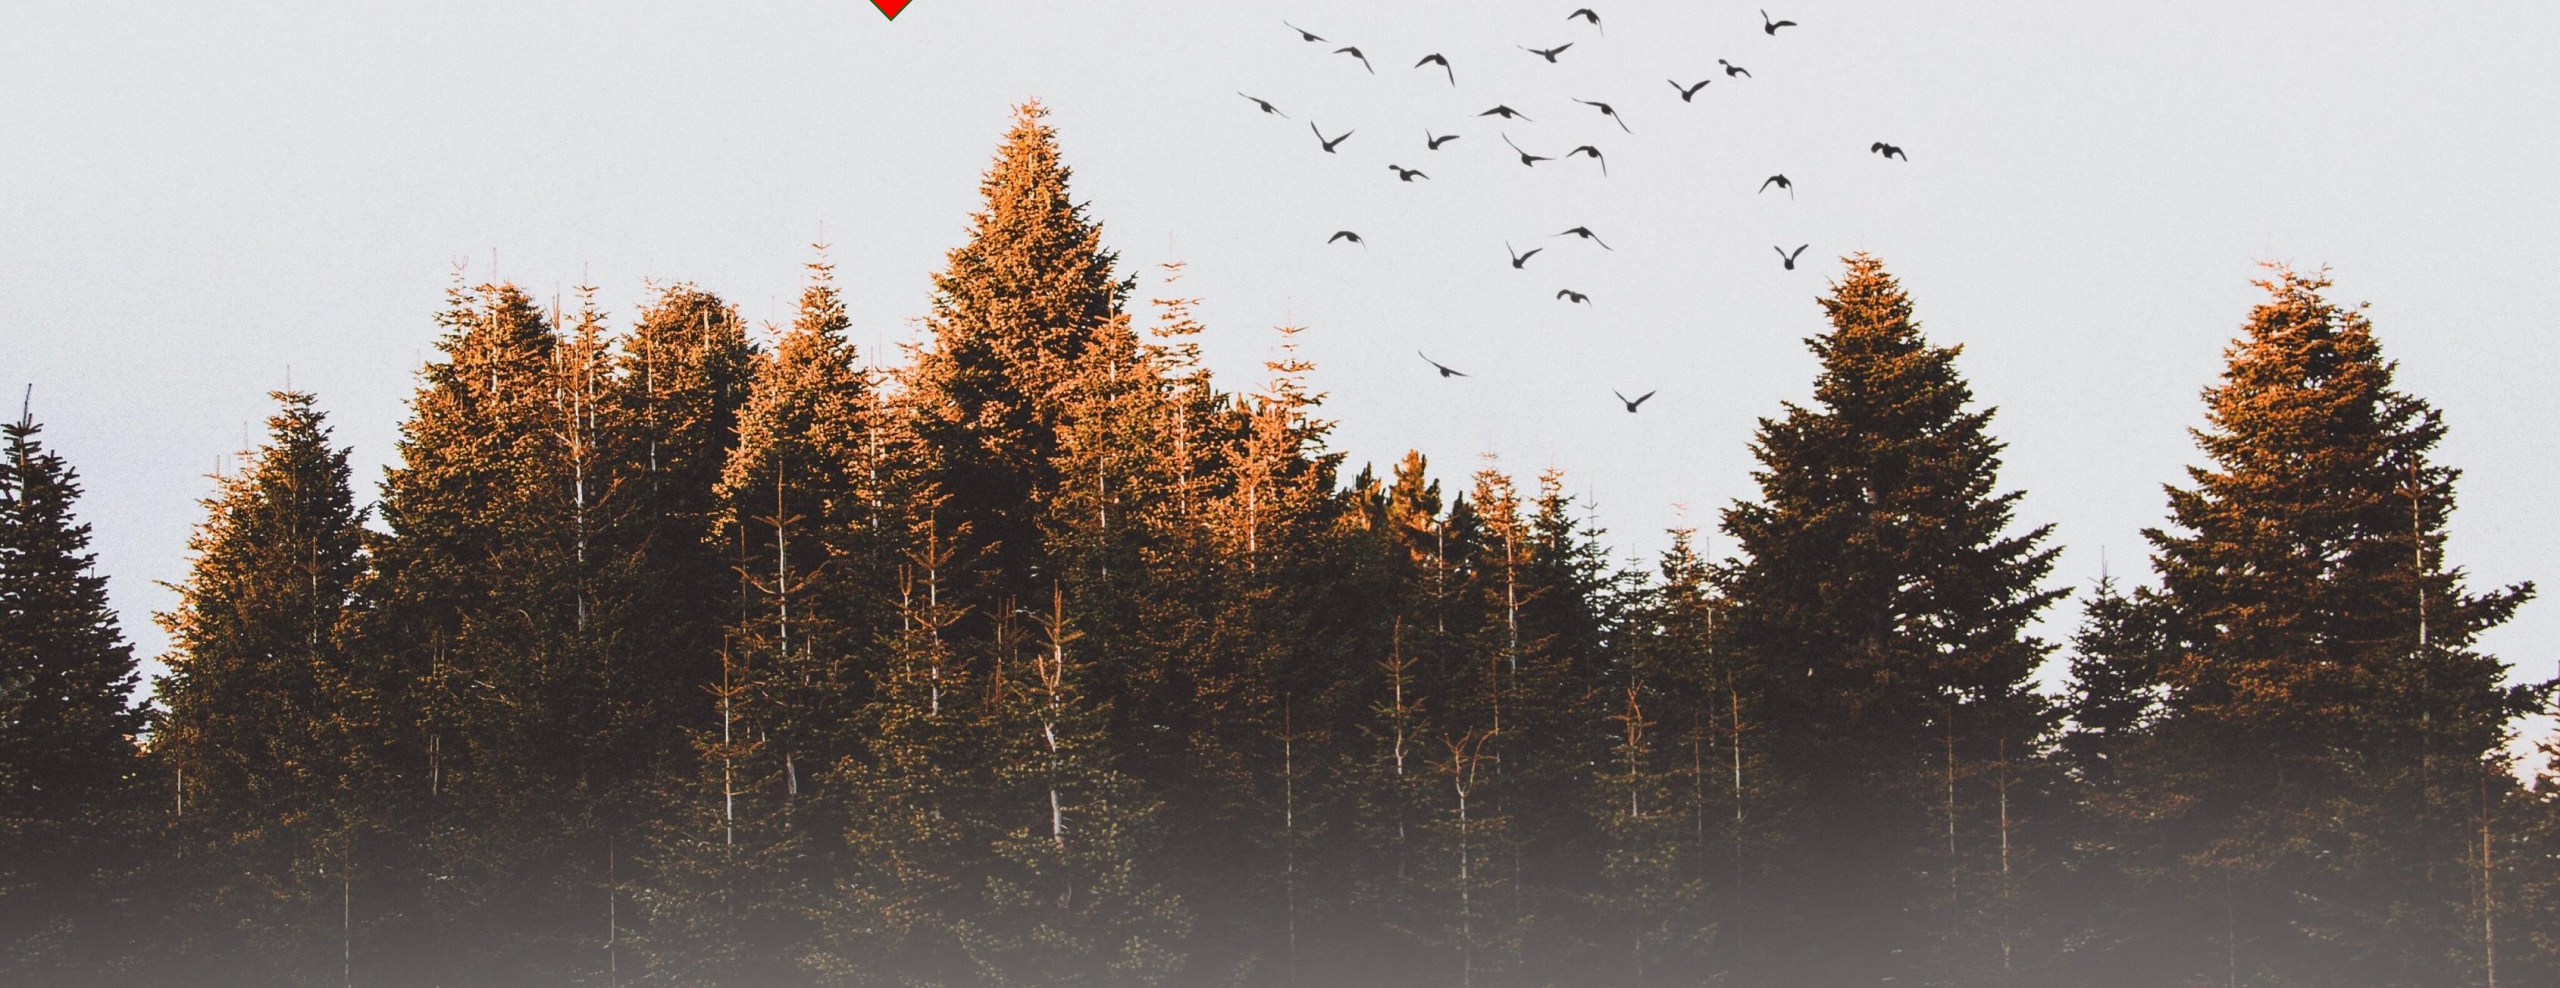

Leadership ability stems from the diversity of our cadres' experiences over forty four years in the field of construction and infrastructure, in addition to operating international airports, managing private flights, freight, and support services, which we provide to many security and governmental bodies, companies, and businessmen to add distinct values. It is of a special nature to maintain quality in performance and save time, and ways to complete comfort, transportation and hosting, the diversity of our ability and our expertise not only in the management, operation and implementation of projects, construction and maintenance of construction, but also in technical and technical training, and our ability and experience in organizing And the management of international exhibitions and governmental and private conferences, in addition to the excellence of our various tourism services available around 24/7
